Re: Completion of Requirements for Notice of Non-Compliance, Quality Building Stone, Amis #1 Quarry, S/049/038, Utah County, Utah

Dear Mr. Hansen:

This letter is to notify you that the requirements of the Notice of Non-Compliance issued November 8, 2002, have been completed. The requirements of the Notice of Non-Compliance were to submit a Notice of Intention to Commence Small Mining Operations, stockpile soil, and to seed the soil stockpile(s). On November 20, 2002, the Division received a Notice of Intention to Commence Small Mining Operations for this site, and this notice was accepted December 2, 2002. You have stockpiled soil as required, and we have decided not to require you to seed the soil stockpiles at this time because you intend to move them in the near future. Your mining operations have been suspended since the notice was issued. You may now recommence those operations.

Because some soil is usually lost during handling, we encourage you to move the soil as little as possible and to seed the stockpiles once they are in more permanent locations.

Thank you for your cooperation. Please call me at 801-538-5286, or Paul Baker at 801-538-5261 if you have any questions.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
